Synchronized Swimming

Details & History

- Synchronised swimming hybrid form of **swimming, dance and gymnastics**, consisting of swimmers (**either solos, duets, trios, combos, or teams**) performing a **synchronised routine of elaborate moves in the water+music**.
- It demands advanced water skills, and requires great strength, endurance, flexibility, grace, artistry and precise timing, as well as exceptional breath control when upside down underwater. During **lifts** (where up to six people act as the platform, one person acts as a base, and one and/or two people act as flyers), swimmers are required not to touch the bottom - yet pull off an outstanding lift.
